## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species:
  - a. Species 1, as illustrated in FIGs. 1, 4, 10, 17, 24;
  - b. Species 2, as illustrated in FIGs. 30, 31;
  - c. Species 3, as illustrated in FIGs. 40A and 40B;
  - d. Species 4, as illustrated in FIGs. 5-9C, 11-16C, 18-23, 25-29C, 33-38, 41, and 42;
2. The species are independent or distinct because FIGs. 1, 4, 10, 17, and 24 illustrate examples of one embodiment utilizing different circuitry whereas FIGs. 30 and 31 are a distinct in that an inductor is used. Furthermore, FIGs. 40A and 40B are distinct from the other embodiments in that a piezoelectric element is utilized. Finally, figures listed in Species 4 encompass a method of driving the device.
3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an

Art Unit: 2629

allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
